

## Single Carriage Double System Zero Finishing Yarn Comb System

As the professional manufacture, we would like to provide you single carriage double system zero finishing yarn comb system. And we will offer you the best after-sale service and timely delivery. Single carriage double system zero finishing yarn comb system, super-sensitive automatic reset probe only works in current weaving width area, no false alarm beyond this. Freely operation, energy efficiency. Automatic

reset ultra-sensitive intelligent probe alarms in the current weaving width, no false alarm in any area outside the weaving area, allowing you to operate as if, energy saving and efficient.

Qiangsheng as one of the leading single carriage double system zero finishing yarn comb system manufacturers and suppliers in China. Over the years, we have always focused on the research in the field of single carriage double system zero finishing yarn comb system. With rich experience and professional technology, we have our own brand in China and have achieved good response. Our single carriage double system zero finishing yarn comb system has covered China, Europe, Africa, South America, Argentina and other multinational fields, and established senior cooperative relations with many buyers. Its function can be achieved, automatic reset function, to ensure that the probe in any area of the tilt, can be automatically righted; The innovative design of two-point induction ensures that the probe immediately stops when it hits the floating piece or the broken needle, so as to realize the ultra-sensitive performance of probe induction.

**Single Carriage Double System Zero Finishing Yarn Comb System Parameter:**

Gauge	5G、 7G、 8G、 9G、 10G、 12G、 13G、 14G、
Carriage	Single Carriage Double System Zero Finishing Yarn Comb System
Knitting Range	44,752"/60"

Specifications and Coonfigurations Should Be Subjected To The Contract.
